

MYELOFIBROSIS

•»» face the future
by challenging the past ««•

2nd ed.

20-21 May 2021

Scientific Secretariat: A. Lucchesi, C. Fava

Evento FAD ECM n. 2773-316129 6 CREDITI ECM per N.100: Medici di area interdisciplinare, Infermieri, Biologi, TSLB, Farmacisti

Per partecipare al Corso è necessario registrarsi sulla piattaforma www.proeventifad.it, una volta creato il proprio profilo e selezionato il corso, inserire la chiave d'accesso: **MIELOFIBROSI2021**

Provider n.2773

MYELOFIBROSIS: face the future by challenging the past

1st day Thursday May 20, 2021

15:00 Welcome and introduction **G. Martinelli**

15:15 FIRST SESSION: BIOLOGY/PATHOLOGY

Chair **G. Martinelli P. Tosi**

15:15 Biological drivers of progressive disease

Genetics of inflammatory response in MPNs

M.T. Bochicchio

DNA polymorphisms to stratify the risk of progression

E. Masselli

Discussion

15:55 Immune escape mechanisms in MF

M.O. Holmstrom

Discussion

16:20 Special talk: inside the pandemic

Myelofibrosis and COVID-19: a burning resemblance

G. Giordano

16:50 SECOND SESSION: NOVEL PATHWAYS, NOVEL TARGETS

Chair **G. Musuraca F. Lanza**

16:50 Megakaryocyte-biased hematopoiesis in myelofibrosis

B. Psaila

17:15 Driver mutations as targets for immune cell therapies

M.O. Holmstrom

Discussion

2nd day Friday May 21, 2021

15:00 Welcome and introduction **G. Rosti**

15:10 THIRD SESSION: JAK INHIBITORS

Chair **G. Rosti**

15:10 Clinical experience and state of the art in JAK inhibition

M. Bonifacio

15:30 From JAK2 to novel targets: time for a combination therapy?

S. Galimberti

Discussion

16:00 FOURTH SESSION: MYELOFIBROSIS AND AUTOIMMUNITY

Chairs **V. Di Battista M. Poggiaspalla**

16:00 Autoimmune myelofibrosis, autoimmune disease in overlap MPNs

C. Fava

16:20 Targeting inflammasomes in rheumatic disease

F. Carubbi, A. Alunno

Discussion

16:50 FIFTH SESSION: STOP COUNTING PLATELETS – TOWARDS A DIFFERENT APPROACH

Chairs **G. Simonetti G. Giordano**

16:50 Circulating microvesicles and their potential clinical impact

L. Catani

17:10 Aspirin dependent expression of platelet fibrinogen receptors

A. Lucchesi

17:30 Global coagulation assays and their usefulness in MPNs

M. Napolitano

Discussion

18.00 Closing Remarks **C. Fava A. Lucchesi**
